Spirituality and Higher Power

Narcotics Anonymous, as a spiritual program, inspires members to cultivate a relationship with a higher power. This higher power can be understood through each member's interpretation and experiences, allowing for inclusivity and respect towards diverse beliefs and religious backgrounds.

The N.A. program consists of twelve steps that are built on spiritual principles such as honesty, open-mindedness, and willingness. These principles are essential for a successful recovery journey. By following these principles to the best of their ability, N.A. members can live a new way of life, free from the bondage of addiction.

Spirituality in N.A. is about seeking strength and support from a greater source, transcending the limitations of the individual ego, and connecting with a higher power that can guide and empower each member on their journey toward recovery. This spiritual approach is at the heart of the Narcotics Anonymous program, providing a transformative path for those seeking freedom from drug addiction.

> Recovery: (noun; pl -eries) restoration to a former or better condition

NA Membership Survey

Some may wonder why we want this information and how we use it. One of the aims of "A Vision for NA Service" is that NA is viewed as a "viable program of recovery." With members from several countries attending the world convention in 2024 and members around the world participating from their homes. we have an opportunity to demonstrate that we are, indeed, a viable and respected recovery community resource. Presenting ourselves in this way helps us offer hope to others that they, too, can recover. We encourage each member to spread the word about the Membership Survey to their friends. We would like as many members throughout worldwide to participate. Our last NA fellowship-wide survey was in 2018.

Getting an addict to a meeting might be the most important service work we do. But in some ways, it can be the most challenging. Many of our efforts locally and globally share this simple goal—whether members work with their local PR committee to raise awareness, carry meetings into institutions, or keep their local meeting list current, we know this work saves lives.

Promise Yourself: By Christian

To be so strong that nothing can disturb your peace of mind.

To talk health, happiness, and prosperity to every person you meet.

To make all your friends feel that there is something worthwhile in them.

To look at the sunny side of everything and make your optimism come true.

To think only of the best, to work only for the best, and to expect only the best.

To be just as enthusiastic about the success of others as you are about your own.

To forget the mistakes of the past and press on to the greater achievements of the future.

To wear a cheerful expression at all times and give a smile to every living creature you meet.

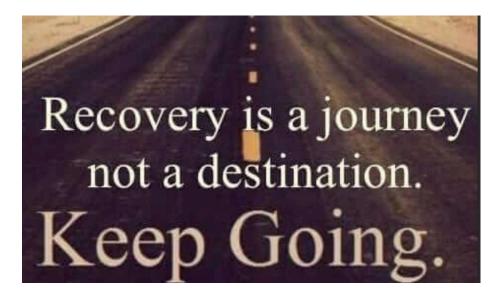

To give so much time to improving yourself that you have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

To think well of yourself and to proclaim this fact to the world, not in loud words, but in great deeds.

To live in the faith that the whole world is on your side, so long as you are true to the best that is in

you.
